

BRACE GmbH is happy to announce and invite you to the

22nd Microencapsulation Industrial Convention

Zurich, Switzerland - June 3-6, 2019

Save the date and register now to get low registration fees and reduced accommodation rate
<http://bioencapsulation.net/2019-Zurich-Microencapsulation-Industrial-Convention/>

13 Presentations from experts

Lectures from leading experts will cover a large scope of the encapsulation field. Selection mixes senior scientists with high level of encapsulation processes understanding, together with experienced business practitioners of well established practical applications.

Up to 18 B2B Meetings

BRG has developed tools for optimizing the B2B meeting organisation. Based on your own pre-selection among the participants list, we optimize your agenda with up to 18 B2B appointments. Coffee-breaks, exhibition and lunch times will give you additional networking opportunities to establish new contacts and find new partners.

20 Exhibitors Showcase

A broad state-of-the-art showcase presenting R&D services, Equipment & Tools, Material & Chemicals, Established Techniques in the realm of microencapsulation. Meet your future suppliers of equipments, services and production.

Partners and exhibitors of the convention ... join them

ENCAPSYS **FOLMANN**

Conference program

Tuesday June 4, 2019, Morning

Introduction to microencapsulation
James Oxley, SwRI, USA

Technologies at Erbo Spray
Rolf Tona, Erbo Spray, CH

Tuesday June 4, 2019, Afternoon

Microencapsulation of lactic and probiotic cultures
Christophe Lacroix, ETH Zurich, CH

Simulation methods for fluidized bed spray granulation
Stephan Henrich, TUHH, DE

Visit of Erbo Spray Industrial Plan

Wednesday June 5, 2019, Morning

Spray drying and fluidized bed spray drying for aroma encapsulation
Jenny Weissbrodt, Symrise, DE

Comparative assessment of different types of core/shell microcapsules for industrial applications
Klaus Last, Koehler Innovative Solutions, DE

BASF Micro-Encapsulation Technologies and Application in Sun Screen
Antoine Beziau, Basf, DE

Wednesday June 5, 2019, Afternoon

Innovative gentle drying technologies
Jérôme Vallejo, Lesaffre, FR

Delivery Systems for Low Molecular Weight Volatile Payloads
Philipp Erni, Firmnich, CH

Polymers for particle coating, a review
Dr Jörg Brunemann, Harke Pharma, DE

Thursday June 6, 2019, Morning

Integral water repellency of cementitious material from inorganic microcapsules.
Léon Marteau, Down, BE

Solid processing and particle design
Gabrie Meesters, Delft University, NL

Evaluation of Strength and Wall Thickness of Core/shell Microcapsules
Todd Schwantes, Encapsys, USA
